

1 18 7 63 15 22 45 31

From this list of numbers find

(a) the median, [2]

(b) the range. [1]

2 13 32 54 52 20 5 40 80 19 47

From this list of numbers find

(a) the median, [2]

(b) the range. [1]

1 18 7 63 15 22 45 31

From this list of numbers find

(a) the median, [2]

(b) the range. [1]

2 13 32 54 52 20 5 40 80 19 47

From this list of numbers find

(a) the median, [2]

(b) the range. [1]

1 18 7 63 15 22 45 31

From this list of numbers find

(a) the median, [2]

(b) the range. [1]

2 13 32 54 52 20 5 40 80 19 47

From this list of numbers find

(a) the median, [2]

(b) the range. [1]

1 18 7 63 15 22 45 31

From this list of numbers find

(a) the median, [2]

(b) the range. [1]

2 13 32 54 52 20 5 40 80 19 47

From this list of numbers find

(a) the median, [2]

(b) the range. [1]

1 18 7 63 15 22 45 31

From this list of numbers find

7 15 18 **22** 31 45 63 22

(a) the median, [2]

(b) the range. $63 - 7 =$ [1]

2 13 32 54 52 20 5 40 80 19 47

From this list of numbers find

5 13 19 20 **32** **40** 47 52 54 80

(a) the median, $(32 + 40) \div 2 =$ [2]

(b) the range. $80 - 5 =$ [1]
